

# Voyager Package Specials:

# The Voyager Standard

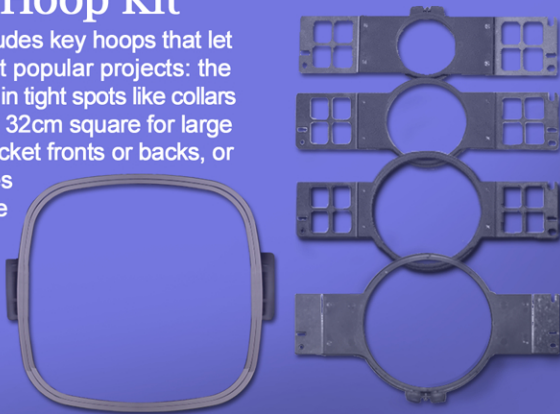

The Standard Package is for those who would rather cut out all the extras and get straight to the point: take home a great multi-needle embroidery machine and the essential kit to get up and running. The package the HAPPY Voyager machine, its custom-made stand and key hoops that let you take advantage of Voyager's amazing capability.

*Slender sewingarm & open front lends amazing flexibility to your sewing projects!*

## Standard Hoop Kit

The package includes key hoops that let you take the most popular projects: the 9cm round to sew in tight spots like collars and cuffs; the big 32cm square for large areas (think full jacket fronts or backs, or entire quilt squares done in a single hooping); plus 3 additional rounds to cover sizes in between.

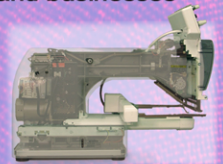

## Custom Stand

Included in the package, this sturdy, wheeled worktable provides plenty of support, plus shelf space for supplies. A custom cutout leaves the hoop area open for large projects. The tabletop also mates perfectly with the optional cap sewing system.

## The Voyager Advantage

As a multi-needle machine, HAPPY's Voyager provides a unique formula of strengths for sewers and businesses looking for serious embroidery capability: it has the durability of its larger cousins, with strong components that withstand years of hard work. Its large 12"x12" sewing field accommodates

just about any type of job, big and small. The other side of Voyager's winning formula is its friendliness for everyone from home sewers to small business owners: it's compact and

quiet enough to operate in the home or small office - even while delivering its full sewing potential. At 88 lbs and needing only 11"x17" of level space to sit, this offers owners a great deal of flexibility. We invite you to join the many who have found success with HAPPY's most popular machine ever!
