### General Features

- Ink delivery: Piezo-electric drop-on-demand inkjet
- Maximum print area: 12.5" x 19.5" (323mm x 500mm)
- Standard platen: 12.2" x 21.2" (310mm x 540mm)
- Ink type: 5-color (C,M,Y,K + White) water-based pigment ink
- PC Connection type: USB 2.0 for fast transfer of large graphics
- Power supply: 110v AC up to 240v AC
- WICS (White Ink Circulation System):
  - Allows printing on dark & light garments
  - Circulation system prevents costly clogs, reduces maintenance, with efficient idle mode that circulates ink as needed
  - Minimizes down-time & setup between print jobs
  - Allows extended printer idle time between print jobs
- Electric print head cleaning unit
- Bulk ink delivery system for white ink
- Cartridge ink delivery system for color
- Self-monitoring modes display & correct errors

### About Direct Garment Printing

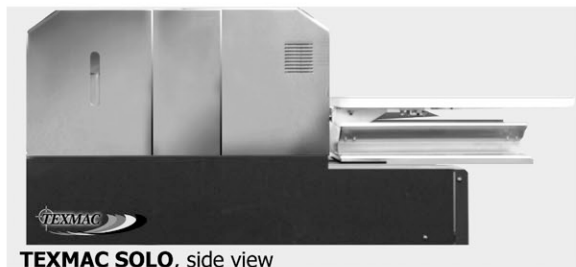

Direct to garment inkjet printers allow you to print images directly from PC to garment without the complex, time-consuming and often messy setup that would otherwise be required in screenprinting. And in today's market where smaller order quantities are increasingly the norm, the relatively fast, easy setup with garment printers makes these small-sized orders practical. SOLO is a great printer for any size operation, whether handling small-quantity orders or even as a fast proofing machine for large operations.

### The SOLO Advantage

With its unique White Ink Circulation System, SOLO has the ability to produce sharp, colorful prints with ease on dark as well as light-colored shirts. In addition, WICS makes SOLO exceptionally reliable, freeing operators from traditional clogging and banding found with many other garment printers. SOLO also takes advantage of INKMAX inks, known for their fine-ground pigments, brilliant color and overall "printer-friendliness".

### Included Equipment

- WICS white ink system
- Startup ink set: C,M,Y,K cartridges + bulk white ink
- VARIO RIP software for design setup & transfer
- Cleaning Unit: extends life of print head, minimizes service
- Maintenance kit & supplies: for daily & extended cleaning
- Full platen set incl: adult(12.2" x 21.2"), child size (8.2"x 11.9"), and sleeve (4.2" x 20.4") sizes
- Cables: A/C power cable, USB 2.0 data cable
- Shipping case
- 1L pretreat solution + spray applicator
